of gestation but is most common between 4 and 6 mo of gestation. Neospora can be associated with sporadic abortions or abortion storms, and repeat abortions in cows have been reported. Most infections result in an asymptomatic congenitally infected calf.

## **Abortion in Cattle - Merck Veterinary Manual**

A manual is expected to give more in-depth information and instruction than a guide, which is just expected to give the overall information that the person or user may require. Basically, it can be said that a manual is a complete, in-depth set of instructions, whereas a guide is a simple 'how-to' that has enough information to get the user started.
