The legality of Library Genesis has been in question since 2015 because it allegedly grants access to pirated copies of books and paywalled articles, but the site remains standing and open to the public.

Absurdus Delirium

Delirium is a serious disturbance in mental abilities that results in confused thinking and reduced awareness of the environment. The start of delirium is usually rapid — within hours or a few days. Delirium can often be traced to one or more contributing factors, such as a severe or chronic illness, changes in metabolic balance (such as low ...

Delirium - Symptoms and causes - Mayo Clinic

Delirium is an abrupt change in the brain that causes mental confusion and emotional disruption. It makes it difficult to think, remember, sleep, pay attention, and more. You might experience...

What Is Delirium? Types, Causes, and Treatments

The first goal of treatment for delirium is to address any underlying causes or triggers — for example, by stopping use of a particular medication, addressing metabolic imbalances or treating an infection. Treatment then focuses on creating the best environment for healing the body and calming the brain.

Delirium - Diagnosis and treatment - Mayo Clinic

páginas de Absurdus Delirium respiran la frescura de quien narra con la despreocupación de saber que, cuente lo que cuente, estará bien. Porque, por buenas que sean las historias de Joan Tharrats (que lo son), son las fantásticas láminas, y la narrativa de Tha (el Tharrats silencioso), las que hipnotizan al lector.

Delirium is often mistakenly diagnosed as dementia because their symptoms are similar. Dementia is characterized by a decline in two or more brain functions and is a symptom of a condition, such as Alzheimer's disease or stroke. Delirium can also be confused for mental illness, especially when the underlying illness is difficult to diagnose.

3 Ways to Treat Delirium - wikiHow

Delirium, also known as acute confusional state, is an organically caused decline from a previous baseline mental functioning that develops over a short period of time, typically hours to days.
