Field Guide to the Everending Earth I believe the earth will survive us. It has survived far worse than us. Its 3.5-billion-year life history is a gauntlet of apocalypses.

Apocalyptic Planet - Craig Childs - Home Page

Apocalyptic Planet is a slight turn for Childs, venturing into territory that may be considered political—climate change. Yet he is able to pull it off well by painting a tangible picture of lands that could be lost, and by putting them in the context of a much longer timetable—thousands and millions of years—than the decades we experience and can grasp in our simple lives.
