Most point and shoot cameras beyond the most basic model come with a little used mode for creating panoramic images. This mode serves a couple of functions. First, it will use the display on the camera to show your last picture taken and then a live view of the next picture.

## **8 Guidelines To Taking Panoramic Photos With Any Camera**

Determine basic point-shoot capabilities of the gun. With an unloaded gun, close your eyes and point the gun in a safe direction with your finger next to the trigger, but not on it, at a makeshift target. Imagine pointing the barrel of the gun directly at the target. Open your eyes — the sights should be lined up exactly where you wanted it.
