Click to access information on the Management of Chemotherapeutic Extravasation. Abstract. All companion animal practices will be presented with oncology cases on a regular basis, making diagnosis and treatment of cancer an essential part of comprehensive primary care. Because each oncology case is medically unique, these guidelines recommend a patient-specific approach consisting of the following components: diagnosis, staging, therapeutic intervention, provisions for patient and personnel ...

2016 AAHA Oncology Guidelines for Dogs and Cats

2016 AAHA Oncology Guidelines for Dogs and Cats. Although some doses and indications for use of cytotoxic agents are mentioned in this paper, it is important that such information be viewed as very general. The choice of chemotherapeutic agent and dose is always the discretion of a veterinarian.

Veterinary Oncology - Veterinary Information Network

WELCOME. The Veterinary Society of Surgical Oncology (VSSO) was developed to bring together individuals with various backgrounds but similar goals: to more effectively treat veterinary patients with cancer and to advance the understanding of cancer across species. While much of our focus is placed on the surgical aspects of oncology, we incorporate the principles of other treatment modalities such as chemotherapy, radiation therapy, and interventional oncology, and focus on utilizing ...

VSSO

The Veterinary Cancer Society (VCS) was formed in 1976 by a small group of veterinarians whose goal was to establish a professional organization dedicated specifically to veterinary oncology.
