For webquest or practice, print a copy of this quiz at the Chemistry: Chemical Reactions webquest print page. About this quiz: All the questions on this quiz are based on information that can be found at Chemistry: Chemical Reactions. Instructions: To take the quiz, click on the answer. The circle next to the answer will turn yellow. You can change your answer if you want.

### Science Quiz: Chemistry: Chemical Reactions

Sixth Grade Students are engaged in scientific practices as they study physical and earth/space concepts. They investigate the physical science concepts of structure and properties of matter as well as the forces on and interactions between moving objects (and the resulting change).

### Science | JCPS

Chapter 6: Chemical Change Students explore the concept that chemical reactions involve the breaking of bonds between atoms in the reactants, and the rearrangement and rebonding of these atoms to make the products. Students investigate reactions which produce a gas, form a precipitate, and cause a color change.
