book? BookBoon may have what you're looking for. The site offers more than 1,000 free e-books, it's easy to navigate and best of all, you don't have to register to download them.

Climatologie

Climatology (from Greek κλίμα, klima, "place, zone"; and -λογία, -logia) or climate science is the scientific study of climate, scientifically defined as weather conditions averaged over a period of time. This modern field of study is regarded as a branch of the atmospheric sciences and a subfield of physical geography, which is one of the Earth sciences.

Climatology - Wikipedia

Climatology, branch of the atmospheric sciences concerned with both the description of climate and the analysis of the causes of climatic differences and changes and their practical consequences. Climatology treats the same atmospheric

Overview. A tropical cyclone is a rotating, organized system of clouds and thunderstorms that originates over tropical or subtropical waters and has a closed low-level circulation.

Tropical Cyclone Climatology

La climatologie est l'étude du climat et de l'état moyen de l'atmosphère, c'est-à-dire la succession des conditions météorologiques sur de longues périodes dans le temps [1]. Il s'agit d'une branche combinée de la géographie physique et de la météorologie, l'étude du temps à court terme étant le domaine de la météorologie opérationnelle.
