Defence | ST Logistics Pte Ltd

The Defence Logistics Organisation (DLO) was a key element of the UK Ministry of Defence, responsible for supporting the armed forces throughout the various stages of an operation or exercise; from training, deployment, in-theatre training and conduct of operations, through to recovery and recuperation ready for redeployment.

Defence Logistics Organisation - Wikipedia

Logistics account for well over one-fourth of the defense budget, including nearly \$7 billion spent to date on fourteen modern information-based Enterprise Resource Planning (ERP) systems. Logistics will be a key area for saving money even as demands grow to improve performance to support DoD missions.

The logistics process, capabilities and organisations must be systematically assessed for its readiness. Every military activity or exercise is an opportunity for assessing logistics performance, but it is rare that military exercises comprehensively test and assess operational sustainability and logistics readiness with rigour.

The roots of readiness - the six logistics factors shaping ...

Welcome. OUSD(A&S) is focused on forming an acquisition system that moves at the speed of relevance, and to do that, has been shaped into an organization that provides a defense-wide adaptive acquisition framework from need identification to disposal.
