### Physics 316--Classical Mechanics

Using the table in Chapter 1 (pps. 24-25) of the Goldstein text, with GDP as a measure of power and the maps at the front of the book, pick a state and speculate about what coalition might form with sufficient power to oppose a state (that you select) if it becomes aggressive.

### Answer: GDP As A Measure Of Power (520 words)

By the method of time-dependent perturbation theory, carry the solution for the linear harmonic oscillator (in which the potential is considered a perturbation on the free particle motion) out through third-order terms, assuming the initial condition  $\beta_0 = 0$ . Find expressions for both  $x$  and  $p$  as functions of time and show that they agree with the corresponding terms in the expansion of the ...
