Intelligence Analysis | SAGE Publications Inc

The target-centric approach to intelligence is a method of intelligence analysis that Robert M. Clark introduced in his book "Intelligence Analysis: A Target-Centric Approach" in 2003 to offer an alternative methodology to the traditional intelligence cycle. Its goal is to redefine the intelligence process in such a way that all of the parts of the intelligence cycle come together as a network.

Intelligence cycle (target-centric approach) - Wikipedia

Evaluate and depict behavioral, physical, or functional relationship links between network nodes. Research and analyze a given threat actor then construct a target centric analysis of the target actor's network and patterns-of-life.

Very happy with Robert M. Clark's Intelligence Analysis: A Target-Centric Approach. I have some experience with both the intelligence world and its world applications as they apply to targeting. As the world becomes increasingly more politically complex, and our enemies fragments across the globe a well varied and focused intelligence community is of ever increasing importance.
