While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers.

Internet Vs Newspaper Statistics

Gloomy business considerations aside, the dead-newspaper people say the internet is just a better place to get news. "On the web, newspapers are live, and they can supplement their coverage with audio, video, and the invaluable resources of their vast archives," said Jeffrey I. Cole, director of USC's s Digital Future Center.

Newspapers vs. Digital News: Who Will Win?

As of August, 43% of Americans report often getting news online, just 7 percentage points lower than the 50% who often get news on television, according to a Pew Research Center survey conducted in August. This gap between the two news platforms was 19 points in early 2016, more than twice as large.
