Born in Chilleurs-aux-Bois in 1876, Madeleine Vionnet was apprenticed to a dressmaker while still a child. She began her career in fashion working for makers of lingerie, as well as dress-makers and couturiers in London and Paris.

Madeleine Vionnet | LoveToKnow

Back in print at last, with a ravishing new cover, Madeleine Vionnet is "not only the best book on Vionnet, but perhaps the best book ever on a fashion designer" (Out). Madeleine Vionnet (1876-1975) was the greatest dressmaker in the world.

Madeleine Vionnet by Betty Kirke - Goodreads

Madeleine Vionnet was a consummate technician, particularly known for her innovative use of the bias cut and the

mathematically precise construction of her garments. Minimalist by philosophy, Vionnet's construction details were often executed so as to create decorative effects, obviating the need for any trimming.

Famous for the "bias cut," Madeleine Vionnet's sophisticated approach to couture remains a pervasive influence today. Eschewing artificial and restrictive padding and stiffening, she liberated the female form with designs that integrated movement and comfort into women's fashion.

Madeleine Vionnet by Pamela Golbin - Goodreads

Madeleine Vionnet is my favorite designer of all time, and I purchased this book as a special treat. Have to say I was disappointed in my first pass through the book. And my second pass. I have not finished reading the text, but

the bulk of the book (the images) left much to be desired.

Madeleine Vionnet: Golbin, Pamela, Gries, Patrick ...

Vionnet is an haute couture label founded by the French couturier Madeleine Vionnet. Established in 1912, the house of Vionnet closed doors in 1939. Vionnet was relaunched by Guy and Arnaud de Lummen in the mid-1990s with perfumes and accessories, and then in 2006 with ready-to-wear collections.

Vionnet (company) - Wikipedia

Madeleine Vionnet was a consummate technician. Draping her fabrics on a $\frac{3}{4}$ mannequin, she produced garments that were the epitome of precise construction. She contributed to the development of the bias cut, combining it with geometric piecing and stitching that was both decorative and functional to create nearly liquid, form-fitting shapes
