Sawgrass has established itself as one of the top manufacturers of high-quality and user friendly sublimation printers. This continues with their SG500 and SG1000 printers, both of which are further refined inside with touches as a single roller bar, WiFi printing capability, and support for Sublijet-UHD inks.

Sawgrass SG500 Setup and Installation - HeatPressNation
The SG500 is backwards-compatible with SG400 accessories, so if you already own a bypass tray for the SG400, you will be able to continue using it. This allows you to print on media up to 51" long (1295 mm). Like all Sawgrass printers, the SG500 performs its own automatic maintenance cycle for trouble-free printing.

Hi, I've been trying to stack three switches a SG500-28P a SG500-52P and a SG500X-28P - the SG500s stack fine, however when I added the 500x to the stack, the unit deactivated itself and took itself off the network - not good as it was the core switch! Any ideas what's going on, are they using a di...
