The anatomy of human destructiveness. [Erich Fromm] -- How can we explain man's lust for cruelty? In a world in which violence seems to be increasing, social philosopher Erich Fromm has treated this haunting question with depth and scope in the most ...

The anatomy of human destructiveness (Book, 1973 ...

destructiveness has been inherited from his animal ancestors, and behaviorists like Skinner, who maintain that there are no innate human traits since everything is the result of social conditioning. Conceding that there is a kind of aggression which man shares with animals, Fromm shows that it is defensive in nature, designed to insure survival. On
