Think Dog: An Owner's Guide to Canine Psychology: Fisher ...

In this seminal pet psychology book, John Fisher examines the mind of the dog with examples taken from his practical experience, with the aim of explaining to owners how the world appears from a dog's point of view. The first section of the book traces the ancestry and inherent behaviour of dogs, from their origins as pack animals related to the wolf or the jackal.

Guide dogs are trained to ignore all distractions around them and to focus solely on their owners' needs. Therefore, you should not pet, feed, whistle at, or talk to a guide dog without asking the owner first. Often, reliance on a guide dog is the only thing standing between the owner and serious injury or death.
