Creative Action And Low Light Photography

Understanding Shutter Speed: Creative Action and Low-Light ...

The shutter speed is the exact time of exposure: the time that your camera records an image for. In all cameras, there is a shutter mechanism that determines when

light hits the sensor.
When we take an
image, it opens up for
a given amount of
time, which is the
shutter speed.

outdoor action-filled shots, shutter speeds of 1/500 or 1/1000 sec. are the norm, and for many experienced shooters, getting to these 1/500 and 1/1000 sec. exposures is often the direct result of using the right ISO.

But the faster shutter

Online Library

Understanding

Shutter Speed

speed of the one on the right freezes the water in mid-fall; something you can't distinguish with the naked-eye. (You can click the images to see them larger). Which you prefer is a creative choice; you get a sense of action on the left; on the right you get a surprising image, but no sense of movement.

Shutter Speed: Creative Action and Low ...

Bryan categorizes the book based on the shutter speed. These range from the speeds that freeze action (1/1000, 1/500, 1/250), to the slower ones that emphasize motion. The books value is in the use of the slower speeds. There is not much to learn about taking images at the faster speeds that
